5 to 10	45,49%
10 +	8,46%
Other	

Figure explanation

The graph on the left shows the shift in the forint yield curve over the month. The upper part of the chart shows the yield curve for government bonds in green and the yield curve for interest rate swaps in orange/rusty. The solid line shows the yields at the end of the month and the dashed line shows the yields at the end of the previous month, in percentages displayed on the left-hand scale.

The coloured columns in the lower part of the graph show the change in yields at different maturity points of the two yield curves over the month. In essence, the columns show the shift of the yield curves between the ones marked with continuous and dashed lines, measured in basis points readable on the left-hand scale.

(Source of the figure is Bloomberg.)
